# Mobile Apps

## Continuing Education Certification System

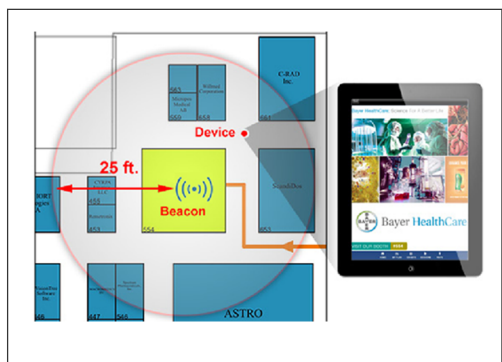

## BLE / NFC / RFID Interface

## Find a Friend

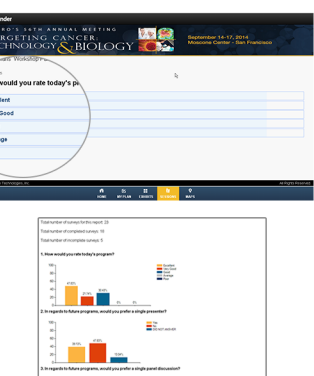

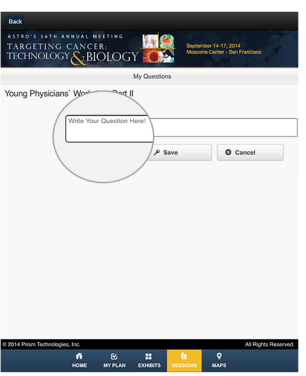

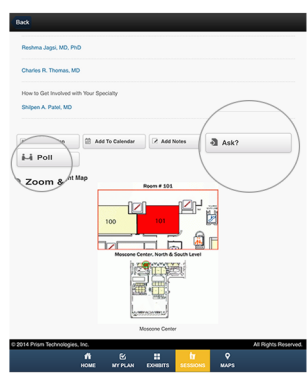

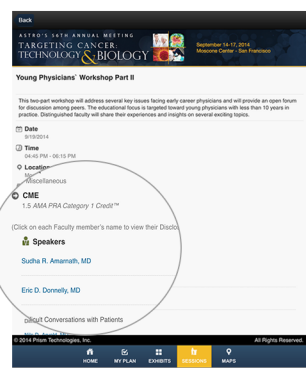

## Integrated with INvite program Beacon technology for proximity advertising and wayfinding

INvite proximity-based message beacons guide your audience around once their inside the facility! Go beyond the sign, right into the mobile device to provide messages about products, events, directions and other information tailored to where you are inside. Sponsors love it!!

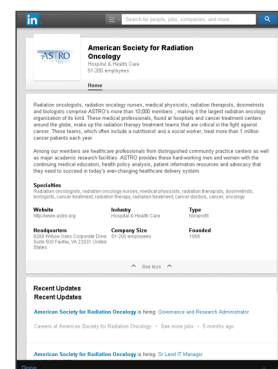

The INvite can be adjust to specific distances, so different notifications can be sent when you are standing in the lobby, at a particular aisle, or standing at an exhibitor's booth!
